best medical practitioners in the world, and many cases have been abandoned as incurable.

Dr. J. WILLIAMS, Chemist and Pharmaceutist, after studying closely the practice of Drs. Abernethy and J. Johnson, England, and observing the nature of the 4's bease in all its stages, during a sojourn in the souther. and western portion of the United States, where it prevails to a greater extent than elsewhere, procured from South America, certain roots and herbs, from which he prepared an 'Elixir,'' which, after eighteen years' use in private practice, has proved itself more efficacious in the cure of Dyspepsia, than any medicine that has ever been prepared in any age or any clime, for the same purpose. Having submitted it, with an explanation of its components, to a number of Physicians of Philadelphia, ameng whom were the late Drs. Joseph Hartshorne and J. C. Morton, it has received their entire approval, and many of the Medical Faculty are not only prescribing it for their patients, but are using it themselves personally, and in their families. As a tonic, it is unequalled, and its properties are of so invigorating a nature, that it is given with perfect safety and success to the most tender infants.

The 'Elixir' is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucous memi-rane of the stomach, and requires that only one dose be taken in twenty-four hours; for confirmed Dyspepsia can only be curred by gradually restoring the organs of digestion to a healthy state. The great success met with in curing the most aggravated cases of Dyspepsia, accompanied sometimes with a high grade of hypochrondriasis has established the most unbounded confidence in the curative properties of this "Elixir." in corroboration of which dead the following testimonials:

Dr. J. Williams—Dear Sir. For iffeen years previous to 1854, I suffered so much from Dyspepsia, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; the best medical aid was procured for me, and every means resorted to without any relief, till I was advised to use your "Elixir," and frem the time I began taking it I gradually improved, till was completely restored to health. The dreadful suffering I indured from Dyspepsia I cannot describe; but I am confident that without the use of your "Elixir," I should be in my grave. I assert that I solemnly believe your "Elixir" has saved me from an early death. I con time now in the enjoyment of excellent health.

WEDNESDAY, SEPTEMBER 15, 1858. Reading Matter on every page.

The Memphis Branch Railroad-Hew to Build It. In our article of yesterday, we showed by a comparison with other railroads, not only in Kentucky, but in the whole United States, that the Memphis branch will cost \$30,000 per mile, or \$1,440,000, for the road complete. The question we now propose to consider touches the mode of

The plan which Gov. Helm laid before our city fathers, and which, we are sorry to say, he decoyed them into adopting, does not provide the neces sary means by many thousands of dollars. The Governor don't seem to understand his own plan. We will develop it for him, and make that plain which he has left too much befogged for the disburser of millions of the people's money in the construction of an important railroad.

He proposes to build this branch road with \$300,000 Logan county bonds, \$300,000 Louisville city bonds, \$200,000 first mortgage bonds, and \$100,000 private subscriptions. The grand total of his means is, therefore, \$900,000, to complete a work which we say will cost \$1,440,000. Here, then, is a deficit of \$540,000, and as the Governor don't make any provision for it, we suggest that as the oad will pass through Warren and Todd counties, as well as Logan, and so near to Simpson (it not through it) as to benefit it very much, these three counties should bear a portion of the burden. But as more of the road will be in Logan than in Warren, and more in the latter than in Todd, these counties should contribute about in the following proportions: Warren county \$250,-000, Todd, \$200,000, and Simpson \$100,000. This ontribution would make up the deficit, and overun it \$10,000-a sum which the Governor may nd very necessary before his road is finished. Now, this development of the Governor's plan build his branch road upon bonds, or in other

words, upon credit, gives him the following securities 'odd First mortgage,

The plan, however, does not provide for such scounts as he might, in the plenitude of his financial wisdom, consider necessary for the interests of his branch road. It would not do for him to sell his county bonds, or his Louisville city bonds, or his first mortgage bonds, at less than seventy-five cents on the dollar. Besides injur ing the credit of the counties, the city and the road, by coming under these prices, he might not have enough to complete his road, and might have to call for more! more!! more!!!

We think it would be well, therefore, for Gov Helm to turn a few of the letters he is writing to the papers here into stump speeches, log rolling addresses, and bush-whacking appeals to the people of Warren, Todd and Simpson counties, to make the subscriptions above named. It would ook much better to begin operations down there. The subscription asked of Louisville ought to be the last. It should be held back as a kind of reserve-a help which is to come when all others fail. We should feel, way off here, much more like the road would be built if we were the last called

upon instead of the first. We confess, however, that we don't like this plan of Gov. Helm-this building of a railroad with onds, which is but another name for doing it upon credit. Experience has taught us that it is a very dear way of getting a railroad. The Governor would not probably realize more than a million of dollars out of the \$1,350,000 in bonds which we have enumerated for him, and we all really be worth par. It would be a question, there fore, for the counties and the city to consider whether they would not prefer giving him th million of dollars in money instead of \$1,350,000 in bonds, upon which they would be paying inter est while he was shaving them off to the merciless Shylocks who infest the land. Instead of paving nterest on the bonds for twenty or thirty years, t might be better to save the twenty-five per cent. iscount themselves, and pay off the principal as the branch road progressed; for if it did not advance any faster than the main stem has gone. they would have plenty of time to pay off the debt by direct taxation without ever feeling the

But the Governor says his branch road can be ompleted for a much less sum than \$1,440,000.-He assured our city fathers, while he was getting them to pass his three hundred thousand dollar ordinance, that the branch road could be completed for \$800,000. Now that he has got the council to pass his ordinance, he says the road will cost \$980,000, and gives Mr. Olmstead as authority. We showed yesterday that he misquoted Mr. Olmstead in a sum sufficient to buy the rolling stock for his road. This we fixed at \$2,000 per mile, and it is, therefore, fair to add \$96,000 to the last estimate of Gov. Helm. While, there fore, he was persuading our city fathers to pass his ordinance, he said his road would cost \$800. 000, but now, that his ordinance is passed, he may be said to run up the cost to \$1,070,000. This is ar increase of the good round sum of \$270,000 in a very short time, and the Lord only knows how much he will increase it if the people here will only ratify his ordinance. We are very much afraid that e will at once swell the cost beyond our estimate

f \$1,440,000. But if the branch road is only to cost \$1,070,000 the Governor cannot more than realize that sum out of the \$1,440,000 of securities that we have provided him with by developing his plan. He would have \$1,350,000 in bonds, which, according to his rate of 75 cents on the dollar, would net him \$1.012,500. Add to this what he would realize out of \$100,000 of individual subscriptions, and he would just about have the sum that he says will

\$1,070,000 in cash, we would like to see it done, without feeding so many usurers and Shylocks with exhorbitant discounts. We suggest to those gentlemen in Logan county, who are writing let ters to our city fathers, which, in connection with Gov. Helm's communications, have assumed the character of ordinances, to be published day after day at the expense of the city they are trying to bleed to the tune of \$300,000, that they shall let us alone for the present, and exert some of their eloquence at home. Let them begin their branch road at home, somewhat in accordance with the following suggestions:

Those who own lands upon the line of the pro posed road will be more benefitted by it than any one else. As the road is 48 miles long, there will be 96 miles of lands bordering upon its two sides. and consequently 61,440 acres. These lands lie in Warren, Logan, and Todd counties, and the average value of lands in these three counties, taken together, is \$8 28 per acre. We may, there fore, safely assume that the lands now lying where this road will run, are worth upon an average \$3 00 per acre. If they are worth \$8 00 per acre without a railroad passing through them, they vill be worth much more when severed by the ron highway. We know that their value will be enhanced much more than the discount at which Gov. Helm will sell his bonds, but we will assume that it will be 25 per cent. The owners of these 61,440 acres of land may, therefore, take \$2 in stock for every acre of land without losing one dollar. Indeed, they would be making as clear profit whatever their stock in the road would be worth; for the increased value in their property would more than make up what they paid for the

stock. By this process the owners of the lands imme diately upon the road would raise the sum of \$122,880. Those owning the next nearest lands should take one-half this sum in stock, and the next nearest one-fourth. In this way, the branch road would raise \$215,040 from persons who would absolutely be making money by the opera tion. To this, add the \$100,000 of individual sub scriptions already made, and we have the sum of Helm to answer the following questions: Then let the counties, instead of issuing bonds to be shaved at the rate of 75 cents on the dollar, levy a tax and pay the cash value of their bonds in instalments as the work progresses. The progress of the main stem, in attaining a distance of gress of the main stem, in attaining a distance of the city an opportunity of bidding on the same been advertised for, thus giving all the mechanics of the city an opportunity of bidding on the same been advertised. HENRY F. BAKER

WOULD inform his friends and the public generally that he will keep constantly on hand a complete less than fifty miles in eight long years, does not quality, which he will sell at manufacturar's prices for any one year. Logan county would not year, logan county would not get a tax and pay the work progresses. The property of bidding on the same been advertised for, thus giving all the mechanics of the city an opportunity of bidding on the same?

If Gov. Helm will answer these questions satisfactorily, he will gain many friends to the present mile day.

The report of the Steubenville railroad disaster was exaggerated. Mr. Bryan Roach, of this agent, that the burglar or burglars had taken it factorily, he will gain many friends to the present management of the road.

The report of the Steubenville railroad disaster was exaggerated. Mr. Bryan Roach, of this city, was the only one dangerously hurt.

DAILY COURIER. thus pay \$225,000 in cash, instead of \$300,000 in bonds; Warren county \$187,500 in cash, instead of \$250,000 in bonds; Todd county \$150,000 in cash, instead of \$200,000 in bonds, and Simpson county \$75,000 in cash, instead of \$100,000 in onds. By this process, the branch road would realize \$952,540 in cash from these sources, which

> ants, harpies, and Shylocks who infest the land. When this sum was exhausted, there would still be a balance of \$117,460 wanting to complete the Governor's road. As that time, judging from the lethargic motions of the main stem, will not be likely to occur very soon, it is to be hoped that Louisville will then be in a much better financial ondition than she now enjoys, and that she can, justice to her own credit, and to her own citiens, and to the unfinished works she now has on hand, meet any call that may me made upon her. If she is called upon, however, even under those circumstances, for \$300,000 of her bonds, we shall advise her to ask Gov. Helm at what he will dispose of them, and if he will take 75 cents on the dollar, we shall advise the city to pay the \$225,000 in cash, instead of giving her bonds, which are really worth par, to be thus sacrificed to the injury of her citizens and to the ruin of her credit. With this \$225,000 in cash from the city, and a sum not much greater realized from the sale of his first mortgage bonds, the Governor can complete, his branch road even at our estimate of its total cost. The road, too, thus completed, would have so small a bonded debt, that its stock would be worth something more than the en, fifteen or twenty cent trash of the main

For the Louisville Courier. Relief for the New Orleans Sufferers-An Explanation.

Editors Louisville Courier:—A few days since a

dispatch was received from the chairman of the elief committee of the Young Men's Christian Association of New Orleans, asking pecuniary aid rom our city. A committee was appointed by the ssociation of this city to wait upon the citizens and solicit their subscriptions, and as many of our most liberal citizens have refused to subscribe until it was explained to them why the Christian Association was embarrassed, while the Howard Association was refusing voluntary donations, I telegraphed to New Orleans for an explanation, n reply to which I have received the following:

"New Orleans, Sept. 13, 1858. "J. J. Porter, President of Young Men's Chris-tian Association.—President absent. Vice Presi-dent died to-day. Howards have funds left over from '53, and do not co-operate with other associ-ations. More work here than any one association can do properly. Christian Association have had ix hundred cases, and shall be shortly out of

six hundred cases, and shall be shortly out of funds. Will write fully."

As to the position which the associatian holds in New Orleans, I shall only refer to the following extracts from the Commercial Bulletin, Sept. 6th.

"A new organization this year, for the first time, has entered the field of charity, and in noble rivalry with other and older ones, is covering itself with unfading laurels, and calling down upon itself the "blessings of the poor and of him that was ready to perish." The Young Men's Christian Association have divided the city, we learn, into twenty-two districts, and appointed a committee for each, with physicians and apothecaries, and have established at a number of points, infirmaries, to which the sick, when necessary are sent. to which the sick, when necessary, are sent. reguire, with groceries and other provisions. We call this a Christian work, true

One word more and we have done. They will accept nothing for their own self-denying toils, but every hour they must spend money for medi-cines, for nurses, etc., and hence they must have a large sum to meet the necessities which they find existing. This hint to New Orleans will be sufficient. Surely there is not a man in the city

who, being able, will not put his hand into his pockets to aid them in their mission of love and is the presence of these ministers of mercy in many a dark, and sorrowful, and fever-stricken abede. Let their hands be stayed up; let their purses be filled and kept full to repletion. Every dollar will be rigidly accounted for and thankfully received.

And also to the two following dispatches. Mr Peel, of J. Henderson & Peel, as most of our citi ens are aware, is a prominent merchant of New Orleans:

THE DOCKET.—Some twenty or more cases were called yesterday, and most of them continued, excentral yeserday, and most of them continued, ex-cepting one or two, which were dismissed. In the indictments, three of 'em against Chas. Gennet, for fighting, etc., he was found not guilty in one and all, the prosecuting witnesses admitting that they commenced the foray. It was also in proof that, instead of shooting himself, as had been stated, he was shot by some one also would be far better than placing bonds in the hands of Gov. Helm, to feed the money cormor-

was shot by some one else.

In the case of Jas. R. Rogers, a very old man, who fired a pistol over the heads of a gang of bad boys who were robbing his pear tree and vegetable arden, he was found guilty and fined one cent.
A Peace Warrant.—Fred. Pranner sued out a peace warrant against a woman, Mrs. Housman, who he accused of fighting him, and theatened to pitch in again. It was also alleged that she kicked him with an umbrella. If further appeared that she had beaut their kicked him. ed that she had heard that she had, on one oc-casion, cleaned out a coffee house, and half killed the bar keeper; that being a small man, and she a big woman, he is afraid of her, as he knows she can whip any common man. In her defense, she stated that complainant goes to coffee houses, and tries to persuade her husband off, too, and she won't put up with it. She was permitted to go on in the good work, but the men folks were required to give their own bonds to keep the peace six months, and the costs divided.

ANOTHER PEACE WARRANT.—John Scott was pre-sented on a peace warrant sued out by Mrs. Han-nah McMichael, or Meekin, who said something about his nigger boy piling shavings under her cart, and setting fire to them to burn her cart.—
The warrant was dismissed. DRUNK AND DISORDERLY.-John Scott got off

cott free in the above case, but was next pre-ented on the double charge of drunkenness and disorderly conduct, and snapping a pistol at Mrs. Burns. She testified that he was more crazy than anything else, and troublesome to the neighbor-hood. It appeared in defense that the Burns par-ty rent a portion of Scott's house, and he wants them out, as they are very disorderly about the premises. The recognizance of Scott was taken

n \$200 to keep the peace three months.

A Woman Down.—Margaret Collins was preented to the court on the charge of drunkenness and making her bed across an alley. She says solved in a pint or two of whisky, with a little bark, to shake off the chills. She had managed to worry it all down, and by some means or other she lost the use of her legs. free man of very black color, and hair so kinky that it is tied into knots, was in arrest on the dark and direful charge of aiding and abetting the escape of Charles, the slave of F. A. Moore, a baker. Mr. Wright, a collector on the Jefferson-ville ferry boat, testified that he saw accused and the slave Charles together on the boat last evening, on the way to Jeffersonville, and Miles paid the ferry for himself and Charles saying the latho questioned Charles, and finally arrested and brought him back to the city. They said they were going to a ball at Talbott's, but the witness said there was no ball, or party, going on over there. The accused is a sort of sharp headed negro, who had served a time, or two in the Jeffersonville penitentiary. Miles said they had sanned him up in a hurry, and would the said sanned him up in a hurry, and would the napped him up in a hurry, and wanted the case

The Starbing at the Ball.—The two Jamisons, whose examination was published vesterday, for stabbing John Denovan, at the ball, were each neld to bail to answer a misdemeanor, and the whole posse, including Carter, were held in sums of \$300 for their future good behavior. From Utah,

The Chess Championship of England.

On Tuesday, the 14th ult., the great annual co ress of this association commenced proceeding the library of the Queen's College, Birmingham In addition to many local chess players, Mr. Howard Staunton, M. St. Amant, Herr Lowenthal, and other celebrities were present. Mr. Morphy, the American player, however, did not make his apparent of the control of th American piacyr, however, dut not make the supportance, although expected, and some disappointment was consequently experienced.

On Wednesday the result of the first series of games was declared. The winners were Staunton, Lowenthal, St. Amant, Falkbeer, Salmon and Owen, who had each won their games. Bird was compelled to leave, and so Brien was a winner.

The players were matched as follows: For the

The players were matched as follows: For the
second series of games, Staunton and Lowenthal,
St. Amant and Falkbeer, Salmon and Owen, Brien and Smith. The last player resigned to Brien,
and during the day St. Amant, Falkbeer, and
Owen, each won one game. A match between the
Worcester and Birmingham Clubs terminated in
favor of the latter. On Thursday the games in the great tournament were proceeded with. the games in the second round were decided, the great white the second round were decided, with the exception of that between Staurton and Lowenthal. The first game in this match lasted two days and was not yet finished. The odds were, however, strongly in favor of Lowenthal, who had gained a decided advantage. The other winners were Owen, who beat Salmon; Falkbeer, who beat St. Amant; and Brien, to whom Smith resigned. The ballot was taken for the third round and the players are thus paired: Brien and Falkbeer, and Owen with Staunton or Lowenthal.—Brien won one game from Falkbeer. On Thursday afternoon Mr. Morphy, the great American player, arrived from London, and it was arranged that he should play blindfold eight different ed that he should play blindfold eight different games with eight of the best players present. He

won seven out of the games. We understand, says the London Sun, that arrangements have been made for a match betwee Mr. Morphy and Mr. Staunton, the celebrated En

rangements have been made for a match between Mr. Morphy and Mr. Staunton; the celebrated English player, for £500.

In regard to the latter point the Critic says: "It appears that an effort is being made to raise the funds necessary for backing our English chamption against the American lad—for lad he is, and he looks much more juvenile than he is. The match with Herr Lowenthal offers, however, very little encouragement to Mr. Staunton's friends, and it is very confidently predicted that Mr. Morphy will have to return to America without vanquishing the king of English chess players. Having enjoyed an opportunity of overlooking Mr. Morphy's play, we may say that, in our opinion, he is certainly the most astonishing player we have ever beheld. He plays with great courage, and makes what appears to be the most alarming sacrifices; yet so profound and well guarded are his calculations that he is never more dangerous than when he appears to run the greatest risk; and, as we heard a veteran chess player remark, 'it is impossible to foresee half his moves.' Another very wonderful peculiarity about him is the retentiveness of his memory. We are told, upon good authority, that after playing eleven or twelve games, he will go home and play them over again from the beginning to the end, playing out the variations, and showing how he would have met any change of factics on the part of his adversary.'

Mr. Mathers has just removed to his new and commodious store at 470 Main, between Fourth and Fifth streets, which is specially adapted to the requirements of his extensive trade. The building is 195 feet deep, and five stories high, yet this capacious house is filled to the utmost. The basement story is used for his oil cloths exclusively. From these can be selected the costliest pattern, or those at a lower price, as may meet the wishes of the buyer. The first floor is where the retail business is transacted. It is admirably arranged, displaying the rich and beautiful fabrics in unequalled style. The second story is the wholesale department, where carpets, rugs, curtains, etc., o the richest styles and patterns, from the Roya Milton tapestry and Brussels down to the com mon hemp carpet, are stored in the greatest profusion. THEATER.-There was a large audience last night to see the play of Hamlet, with Mr. Murdock as the philosophic Dane. Hamlet is undoubt edly the best tragic part this gentleman plays, and a variety of reasons adapts it to his peculiar talent and power. He is unequalled, it is conpeded, in this character on the American stage. Passages which to the casual reader may seem obscure, is rendered by him with such clearness, force and beauty, that its meaning is obvious, and the hearer wonders that its sense had not before mpressed his mind. So entirely does he merge his own individuality into the part, that we quite fancy the mad prince stands before us. While the whole conception is truthful, it is in the quicker scenes that its perfection is apparent. There is not a look, or tone, or jesture, all seemingly unstudied, but what is natural. Of course it met with immense favor from the audience. Mrs. Baker's Ophelia deserves the highest praise; but she is good in all she undertakes. The cast otherwise was fair, nothing more.

As the stable contained a large quantity of hav and

grain, the fire spread very rapidly, and thirty-five horses, in spite of every exertion to save them, perished in the flames. The scene is described as one of wild and painul excitement. The flames flashing and leaping into the half darkness; the horses, frightened and maddened by the fire, plunged and neighed and rushed among the burning timbers, but, with that peculiar fatality that attends their kind, made no attempt to escape the horrid death. Freque y horses dragged out of the stable by main force would break their halters and run back into the nidst of the conflagration. They kicked and snorted, and filled the air with cries pitiable to hear, and with flaming bodies lay in agonizing neaps upon the earth, and rolled in horrid death

ble, escaped with great difficulty—indeed it was, for some time, feared they were lost—but not without being slightly burnt in different parts of

A blacksmith shop and a dwelling were also destroyed, together with a jack (breaking) mule, worth \$2,000, making the total loss between \$18,

and \$20,000 .- Cin. Eng. DARNESTOWN, MONTGOMBRY Co., MARYLAND January 81st, 1857. Indigestion-I never felt the benefit of any medicine so much as from the bottle of Barhave's Holland Bit-

ters I purchased last fall. I wish to know where I can get it, without fear of imposition.

sept6 d12&w2-37 Louisville, Ky. The Elixir, prepared by Dr. Jas. Williams for the cure of Dyspepsia, (as advertised in another column) has, by its own merits, obtained for itself so high a reputation in Philidelphia, that physicians acquainted with its properties are using t themselves and prescribing it to their patients, convinced by observation of its power in restoring the disordered digestive organs to healthy function Numerous cases of Dyspepsia of the most aggra vated character, which were abandoned as incura ble by some of the medical faculty, have, by the use of this "Elixir" alone, been restored to perfect health, as attested certificates testify.

This medicine has become a staple remedy, and for years has been extensively used throughout the States of Kenmacky, Tennessee, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, Illinois, Iowa, Wisconsin, Ohio, Indina, Nebraska, Pennsylvania, Michigan, and California, and more lately in Kansas Territory, and has permanently ured near 2,000,000 of cases in all its varied forms and conditions, many of which were from one to three years' standina, and had resisted all the usual remedies known in the country, and in no case did it fail to make a perfect and permanent cure where the directions were properly followed. Such is its invariable success that it has gained the confidence, favor, and patronage of a large number of respectable practitioners of medicine throughout the country, who prescribe and administer it in preference to Quinine and other remedies.

Persons living in districts of country subject to Chills and Fever, Ague and Fever, or Ellious Fever, would do well to keep a constant supply of this invaluable remedy always on hand.

The proprietor has in his possession a large number of certificates and other testimonials from persons who have used this medicine, as well as from Physicians, Druggists, Apothecaries, and other dealers in medicine, attesting its superior virtues as a curative in Chills and Fever, or Ague and Fever; and he could obtain many thousands

AT MEMPHIS, TENNESSEE. Southern Pacific Railroad Meeting.

GENERAL MEETING of the Stockholders of this A Company will take place at Memphis, Tennessee, on WEDNESDAY, 15th of September, 1858, at which a full report of the state of things in Texas will be made, and of the proceedings of meetings in Louisville, Cincinnati and St. Louis, New York and elsewhere, and of the plans of the Company to relieve the enterprise from its present difficulties. Matters are now just in a condition that the friends of the Read can protect bona fide Stockholders, vindicate the rights of the Company, and rescue it beyond doubt from existing difficulties. A general turn out of Stockholders at Memphis is desired, and vigorous and unanimous action—such as may be had there, backing up the meetings already had, will doubtless save the enterprise, re-toring confidence, so that the work may progress.

WATCHS & FOX. AGUE AND FEVER, OR CHILLS AND FEVER,

THE attention of dealers in Drugs and Medicines, and persons afflicted with Chills and Fever, or Ague and Fe-

HE attention of dealers in Drugs and Medicines, and persons afflicted with Chills and Fever, or Ague and Fever, is respectfully invited to this celebrated medicine, which has justly obtained a high reputation throughout the country, and for many years has maintained its superiority over all other remedies, as a safe, certain, speedy, and permanent cure for Chilis and Fever, or Ague and Fever.

The public may rely upon the fact that it is entirely vegetable in its composition, and made from the best, purest, carefully selected reliable articles, and is always prepared by the proprietor in person, and, therefore, he can warrant it uniform in quality.

Its Diaphoretic and Alterative properties, combined with its great Tonic qualities, render it eminently superior to Quinine, and other remedies, as a general and popular remedy in all cases where a Tonic is required and proper to be administered.

It does not produce Headache, Giddiness, Buzzing of the Ears, or any of the unpleasant effects which so frequently attend the use of Quinine, or other remedies, but may be given in all cases, and under all circumstances whatever, to Females, Infants, and all persons who are debilitated, or have the most delicate constitutions, without he least apprehension of any injurious or even unpleasant effects.

Practitioners of medicine who have not prescribed it, and afflicted persons who have not used it, are respectfully invited to give it but a fair trial, and they will then be convinced of its great superiority over other remedies and that it possesses all the virtues claimed for it.

It is not only perfectly safe and innocent in its effect, but in no case whatever has it been known to fall in curing Chills and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out.

This medicine has become a stanle remedy, and for years has been extensively used throughout the States of Ken-

Mr. Lander, superintendent of the Fort Kearney, South Pass, and Honey Lake wagon road,
announces to the Secretary of the Interior the
opening of the road across the first three
great ranges of Washito Mountains, the most difficult portions of the work. Loaded trains have already passed by this way from South Pass to the
valley of Smith's Fork on Bear river. The Wind River Mountain line and that extending along the pen valleys of the Salt and Blackfoot rivers will oon be finished, affording a well built road, which will avoid the desert, the ferries over Green river, and four toll bridges on the lower steames. The road, when completed, will extend from the South Pass to Port Neuf bridge, near Fort Hall, with a cut off to Hudspeth's road to Soda Springs.

Maine Election. PORTLAND, Me., Sept. 14.—Returns from 134 owns give Morrill (Repub.) 31,857 and Smith 27,108. The same towns last year gave Morrill 19,116 and Smith 21,987. The Democrats have gained several Representatives in most of the listricts. The vote for members of Congress runs bout even with the vote for Governor. In the hird district, Johnson, the Democratic candidate s probably elected, vice Abbott, Republican. In is probably elected, when the first district the vote is very close, and the result is doubtful. In the sixth district, Hon. Stephen C. Foster (Repub.) is re-elected. In the fifth district, Hon. Israel Washburne, Jr., is re-elected by a large projection of the state of the stat lected by a large majority.

This celebrated remedy for Rheumatism, Gout, Neuralgia, Erysipelas, Eruptions, Sprains, Burns, Felons, &c., is manufactured only by Prof. Charles De-Frath, everywhere known as the original discoverer, at his old establishment in Philadelphia.

The sale of this great remedy has been unprecedented. Last year alone over \$35,000 worth was sold, and wherever it is snown there it is used. Purcell, Ludd & Co., of Richmond, last year bought over \$1,200 worth; Barnes & Park, of New York, \$3,000 worth; Seth S. Hance, of Baltimore, over \$4,000; J. D. Park, of Cincinnati, \$1,000; and other large Druggists all over the United States.

a decided cure.

This is a purely vegetable compound, prepared on This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated Holland Professor. Berhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quiekening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

The great popularity of this delightful Aroma has in-luced many imitations, which the public should guard gainst purchasing. Be not persuaded to buy anything isse until you have given Berhave's Holland Bitters a air trial. One bottle will convince how infinitely supe-ior it is to all these impristions. This valuable preparation is the prescription of one of he most experienced and skilful female physicians in

New England, and has been used with never-failing success in millions of cases. We believe it the best and surest remedy in the world, n all cases of Dysentery and Diarrhoea in Children, whether it arises from teething or any other cause. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United

States. It is an old and well-tried remedy. PRICE ONLY TWENTY-FIVE CENTS A BOTTLE. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper. WILSON & STARBIRD, Agents, Louisville Sold by all Drnggists throughout the world.

Sale of IN KENTUCKY CITY! On Monday, 27th of September, 1858,

WILL commence the second and final Sale of Lots!n
this growing and most interesting YOUNG CITY. The Trustees, in announcing this sale, feel warranted a assuring the public that at no point in the West can here be found a better chance for safe and profitable

KENTUCKY CITY is located on the east bank of the Mississippi river, twenty miles below the mouth of the Ohio river, at the first eligible highland, and in point of fact, being the mouth of the Ohio river; surrounded by a high beating, and fertile country, rapidly growing in wall h and population, with a saludy rapidly growing in well h and population, with a saludy rous climate, generous, I beral and enlightened society. There wanted but oas further feature to make this the most commanding point on the "great Father of Waters"—this want was an uninterrupted and general outlet to the interior, so as to accommodate the interchange of commodities. That exant is now fully met by the established system of

RAILROADS, which has fixed Kentucky City as the center of a net-work of railroads stretching out and affording connect-ions in all directions with the interior and with the cities and lakes of the North and East, and ramifying through-out the South and West.

That the public may not be led off by suspicions that this is a mere city upon page. That the public may not be led off by suspicions that this is a mere city upon paper, we request you to enquire—to come and see for yourselves.

See the Map—Kentucky City is the northern terminus of the Great Mobile and Ohio Railroad—460 miles long. See also our railroad connection by Union City and along the Nashville and Northwestern Railroad via Parsis and Clarksville to Nashville, 170 miles. Also, by Kenton and along the Memphis and Ohio Road to Memphis, about 160 miles. Also via Jackson, Tenn., Hoity Springs, Canton and Jackson, Miss., to New Orleans, 500 miles. Also via Corinth, thence along the Memphis and Charleston Railroad to Tuscumbia, Huntsville, Chattanooga, Knoxville and the East, and with Atlanta and Savannah, Georgia. Also by the Fulton and Texas Railroad via Little Rock, through to Arkansas and Texas to the Pacific Ocean.

the Iron Mountain Railroad to St. Louis, 150 plying to and ro with Cairo and the Illinois Central Railroad to Chicago and the whole northwest.

Intelligent, enterprising and practical men who will come and see and investigate in person, will be convinced that the extraordinary commercial advantages and facilities of railroad and steamboat transportation possessed by Kentucky City secures to this point requisites for manufacturing and commercial purposes, which must, of necessity, cause it speedily to become the great intermediate city between the NORTH and the SOUTH, at which the productions and manufactures of each section will be concentrated for sale, or to be exchanged for those of the other.

The Hon. Post-Master General, in a recent report, says: "No man can look at the map of this country without his eye finally resting on the mouth of the Ohio as the center of population and commerce of the United States."

We deeply regret to hear that Capt. Vansickles was fatally injured yesterday, in a rencounter with T. S.
